

# The Assistive Technology Team

# Approach

Improving Lives

Improving outcomes for people and their carers, do no harm.

Holistic/  
Person centred/  
outcome focused

Think tech first.  
“Sticky”  
Empowering People

Embedded  
into all crucial  
services HSC

Enabling approach  
and  
collaborative working.  
MOSAIC  
NHS/council/Housing  
/education  
Locality based  
approach

Shifted the  
culture

Educating and  
supporting staff to think  
differently  
Transformative impact  
on service delivery.  
Successfully challenged  
traditional approach

Passionate/  
Dedicated/  
innovative

Positive culture  
within the team  
Common goals

# Testimonials

**Jacqueline, Carer  
of Mary who has  
Dementia**

# User Experience

“

All set up and installed by the Assistive technology team, they were so efficient, patient and caring and gave us so much more information regarding other types of equipment to help keep our sister safe at home, thanks so much

”

69 yr old lady with Vascular Dementia

“

Overall, we can't thank you enough to be part of this trial, it has been an absolute life changer for Steven and the family

”

85 yr old man with Alzheimer's

“

I can't thank you enough, I finally feel safe at night now knowing I can get help when needed

”

40 yr old lady with Epilepsy

“

Tech team were patient and helped me transform my life, I am eating and taking meds when I should

”

77 yr old lady with Dementia

“

I now feel able to talk to my family a lot better as they can now hear me when I have my mask on

”

44 yr old man with MND

“

Most helpful, very knowledgeable and thank you for the quick turnaround

”

Mum of 12 yr old boy with Autism

“

I feel re-assured my mum will be safe with this device and I can't thank your team enough.  
Just so you all know, you are all doing an invaluable job

”

Carer of 75 yr old lady with Dementia

“

When someone is at my door I can see and talk to them from my seat, I don't need to rush anymore as I am frightened that I will fall, thank you for the support

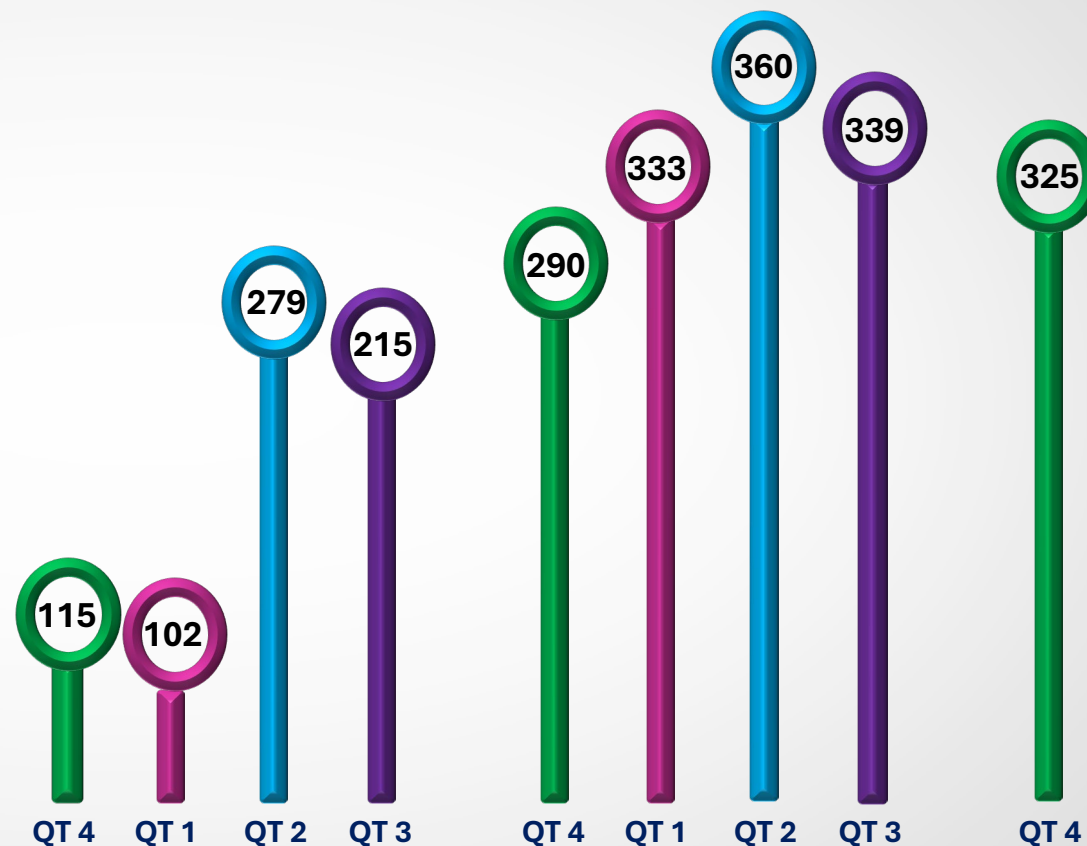

”

80 yr old man with Parkinsons
